

## Early Years Home Learning TERM 2 - How can I make it?

Expressive Arts and Design	Communication, Language & Literacy	Maths and Understanding the World
<p>We celebrate Guy Fawkes Night this term. Did you see any fireworks this year? Can you make a firework picture? You could draw, paint, or collage it - you choose.</p> 	<p>Go on a walk and look for signs. You could take photos to stick in or draw them in your book. They could be road signs, shop signs, posters. Do you know what they say?</p> 	<p>Can you design and make a birthday card with your age on the front? Challenge: can you write your name inside?</p> 
<p>In the story Whatever Next, Baby Bear flies to the moon! Can you construct a rocket for one of your toys at home to fly in? You could use Lego, a cardboard box, it is up to you.</p> 	<p>This term we are reading Whatever Next by Jill Murphy. Can you retell the story to somebody at home? Maybe you could draw your favourite part of the story in your book.</p> 	<p>Can you use 2D shapes to make a picture? You could make a house, a rocket, a flower or anything you choose. See if you can include a circle, rectangle, square and triangle.</p> 
<p>Making and crafting is so much fun. Can you make your own Christmas decoration to hang on your Christmas tree? What materials will you use?</p> 	<p>Find some old magazines or packaging and see if you can cut out the letters to spell your name and stick it in your book.</p> 	<p>We are going to be exploring our local area this term. Can you go on a walk and see what you could find? It could be a leaf, a stone or a pretty flower! Take pictures of your walk and draw some pictures of what you found.</p>
