

## Curriculum Overview :

**This term is all about magnets and forces. We are going to be learning what a force is, what different forces there are, how different objects move on different surfaces, what a magnet is and that magnets have two poles.**

## English :

This term in English, we are reading 'The Iron man'. We will be doing narrative writing where we focus on character and plot. In our narrative writing we are going to be writing paragraphs and using a range of sentences structures in our writing.

We are then going to be looking at non-chronological reports. We are going to create fact files and we will be linking these to our creative curriculum topic.

## Maths :

This term in maths, we will be focusing on multiplication and division. This will include, multiplying and dividing 2-digit by 1-digit numbers, multiplying and dividing using mental methods, jotting, arrays and repeated addition and subtraction.

We will use these skills to look at scaling numbers and then use that to progress onto length and shape perimeters.

## Key Vocabulary :

corroded, immense,  
peculiar, magnetic, poles,  
attraction, repulsion,  
conclusion

## Key Information:

PE day: Monday

## Key Dates :
